

## Everybody Reads the Newspaper

**I**T is a daily necessity, because the information it contains concerns the life of the people. It is an educational agency, a guide and a constant helpmeet. Advertising in a daily paper broadcasts the knowledge of what the merchants can do for the people, and the people with their constant needs go to the merchant who gives them his knowledge.

The EVENING BULLETIN is an example of the sure reliance of the experienced business man in the upbuilding of his trade through judicious newspaper advertising.

## STREETS MUST HAVE PROTECTION

### Aylett Compares Honolulu With Cities In the States

In regard to the new ordinance requiring permits to be issued for holes dug in the streets of the city, carrying with it a fee of \$1 and a bond for faithful performance of the work, of which Supervisor Ayla is the father, now in the hands of the Road Committee for further consideration Friday night, Supervisor Aylett said this morning:

"We must have some protection to prevent people from digging up the streets at random. Every big city in the States has an ordinance of this kind in force, and it is time we were passing one of the same kind. The same applies to the bill passing around town. Any person can go around the city and pest wherever they like bills without any interference. They ought to be compelled to pay a license for doing this kind of work."

### WIFE CHARGES EXTREME CRUELTY

Charging her husband with "extremely cruel and inhuman treatment" Maggie Young Chang has filed a divorce complaint against Henry Chang through her attorney, Clem K. Quinn.

The complaint states that the marriage occurred in August, 1908, and the first set of cruelty according to the complaint occurred on July 13, 1909. On August 16 it is stated that Chang "cold kick [sic] defendant from the house and told her that if she returned he would kill her." She left on the date.

### PLANS TO GREET.

(Continued from Page 1) lunch will be served at the Peninsula, a specialty to be made of pineapple dishes, after which a visit will be made to Leilehua.

On September 2 a trip will be made around the island and a side trip to the pineapple fields.

The reception committee had decided that it would be impractical to expect that the visitors can be housed in private homes, and the management of the Young Hotel have been requested to provide special accommodation at the Royal Hawaiian and open the dining room during the presence of the Congressional party.

CHARLES R. CRANE

Charles R. Crane of Chicago, president of the China company, has been appointed minister to China to succeed W. W. Rockhill, who was taken from China to be ambassador to Russia. Mr. Crane was born in Chicago and is fifty-one years old. He is a son of Richard T. Crane, founder of the company which he now controls. He married Miss Cornelia W. Smith of Peterson, N. J., in 1881.

### DO YOU SPEAK FRENCH OR GERMAN?

If not an opportunity is now presented of learning in the easiest and quickest manner possible. Prof. Matthews will speak at the Young hotel Thursday and Friday, explaining how a conversational knowledge of either language can be acquired in five weeks. He will give a sample lesson illustrating his methods. No hard work, or home study. No grammar to learn and no tuition payable until you are satisfied.

## WAR CONTINUES ON PETERSON

### Mrs. Atcherley Still Seeking Warrant For Asylum Superintendent

Still working on their theory that offense is the best defense, the Atcherleys have again taken the field against Dr. Chan Peterson, superintendent of the Insane Asylum, where Dr. Peterson is confined. This time they have attacked through the Federal Commissioner, and also attempted to have a warrant issued for him from the Police Court; but this last was refused by Judge Andrade.

Mrs. Atcherley had two warrants made out for the superintendent, one for theft and the other for malicious destruction of property. Both charges were based on alleged opening of letters by Dr. Peterson, despatched by the alleged insane doctor to his wife.

Letters written on the 17th, 22d and 23d to Mrs. Atcherley were opened and part of their contents removed. Dr. Peterson so marked them, writing on the outside of the envelope the mere fact that he had opened and read them. In some of the letters several pages were removed, and in others portions of pages.

Judge Andrade refused to issue the warrants without the O. K. of County Attorney Cartwright. The latter refused, according to Mrs. Atcherley, to look into the matter before the Insanity Commissioners had disposed of the case.

Dr. Peterson, it is alleged, took a stamp out of a letter written by Mrs. Atcherley to her husband which she had enclosed for return postage, and she promptly took the matter before the Federal Commissioner, who has not yet taken action on the matter.

Attorney Harrison, who has been managing the Atcherley's case, stated this morning that Dr. Peterson claimed a right to open and remove any portion of letters written by inmates of the asylum to friends or relatives outside, saying that there were often insane babblings in them that led to trouble.

### FAREWELL DINNER

Last night the directors of the Hawaiian Star took the opportunity of entertaining at dinner E. H. Leonard, who has been for fourteen years foreman of the job department.

A large number of guests sat down to the dinner, which was given at the Commercial Club, and several speeches were made, in which the guest of the evening was spoken of in the highest terms.

### HONOLULU WEATHER

Temperatures—6 a. m., 74; 8 a. m., 79; 10 a. m., 82; noon, 81; morning minimum, 74.

Barometer, 8 a. m., 30.04; absolute humidity, 8 a. m., 6,891 grains per cubic foot; relative humidity, 8 a. m., 65 per cent; dew point, 8 a. m., 63.

Wind—6 a. m., velocity 9, direction N. E.; 8 a. m., velocity 6, direction E.; 10 a. m., velocity 9, direction N. E.; noon, velocity 12, direction N. E.

Rainfall during 24 hours ended 8 a. m., .60 inch.

Total wind movement during 24 hours ended at noon 209 miles.

THE STEAMER Helene is discharging 12,240 bags of Papaloa sugar this morning. She also carries ... cattle.

## HILO RAILWAY BONDS SELL AT ADVANCE

Hilo Railway bonds advanced a dollar yesterday afternoon, \$25,000 worth selling at 99, the last previous sale being 98. This is perhaps as good an indication of the trend of the times as could be found. Another good bond sale was of Olao 6's at par, but this figure has ruled for the Olao securities for some time.

It is stated that the large block of Hawaiian Commercial reported yesterday was sold to San Francisco buyers. More of the same stock was reported sold this morning at 34.50. Many are holding for 35.

Walauan dropped off this morning although there is none offering at reduced prices. Good blocks of Oahu sold at 32.25 and Ewa at 31. The market is slow in the usual run of stocks because the buyers believe the stocks in which considerably trading has been done have gone high enough. The possible exception is Walauan.

## SNAPSHOTS TAKEN WHEN PRESIDENT SAW SIXTY MILE AN HOUR AEROPLANE FLIGHT

President Taft witnessed the fastest aeroplane flight ever made on the American continent when he went to Fort Meyer and saw Orville Wright circle the parade ground several times in the flying machine at a sixty mile an hour clip. The President, who was accompanied by nearly all of Washington officialdom, cheered like a boy when the graceful aeroplane, darting like a huge dragon fly, whizzed across the big parade ground with almost lightning speed and soared majestically over the heads of the watching throng. At the conclusion of this flight the President congratulated the aviators, and he promptly notified the signal corps officers that as soon as the course toward Alexandria was marked they would be ready for the official flights. One of these is an endurance flight with two men in the machine, and the other a straight-away flight of five miles and return, also with two men in the aeroplane. Lieutenants Foulois and Lahm were selected for one each of these flights. The course to Alexandria was marked by small captive balloons anchored at a height of 300 feet. The accompanying pictures show the Wrights and various government officials watching the machine in the air. The figures in group No. 1 (left to right) are: Charles Bennett, Secretary United States Senate; Vice President Sherman, Senator Elkins, Colonel Gerard, Senator Nelson, Major Squier and Major Foulois. No. 2 shows the machine in flight and the starting derrick. No. 3, Lieutenant Foulois and Orville Wright. No. 4, machine in full flight with two passengers. No. 5, Wilbur Wright and Lieut. Lahm.

## STEAM ROLLER AND TRACTION ENGINE

Quite a crowd assembled near the naval station to watch the operation of a splendid new combination steam roller and traction engine which has just been imported by the Honolulu Construction & Draying Co. The machine was set up Saturday ready for operation and is now engaged on a contract for the Navy Department.

One of the interesting features of the machine is that it can be used either as a steam roller, or the rollers descended and the machine turned into a traction engine. It is the first of its kind to be brought to the Islands, and hence the curiosity.

W. H. Hoag, of the H. C. & D. Co., is in command of the H. C. & D. Co., a father with his first baby, and takes great delight in showing it off. Therefore people wanting rolling

done have been obliged to borrow the county steam roller," said Mr. Hoag, "but hereafter our roller can be secured for this purpose. The traction engine is available for plowing, heavy hauling, etc. The pineapple farmer with 200 acres or so will find it more profitable to have us do his plowing than by using horses, and we can plow up 25 acres a day in first-class style." The roller and engine combination is certainly an acquisition to the city.

### FORT ARMSTRONG.

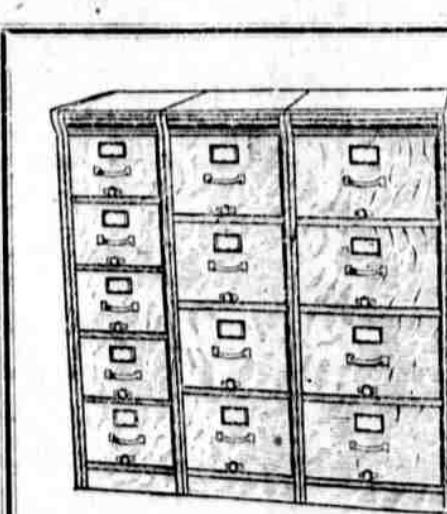

Under General Order No. 160, of the War Department, it is announced that the military reservation on Kauai, known as Fort Armstrong, in honor of Gen. Armstrong (Colonel United States Cavalry), who served with distinction during the Civil War and died May 11, 1892.

## SMALL "SURF RIDER" SELECTED TODAY

Members of the Promotion Committee left this morning for Makiki valley, and will today select the small figure of the "Surf Rider" of which Sculptor Ubahno has made several models for their consideration. The final model will be selected later.

This promises to be one of the most popular moves ever made by the Promotion Committee. Since surf riding has become the rage at Atlantic City, under the supervision of a native Hawaiian expert, and the newspapers in the east and on the coast have talked about it so much of late, the distribution of the city models will be a splendid advertising medium for the tourist trade here.

Blank books of all sorts, ledgers, etc., manufactured by the Barber Publishing Company.

## SECTIONETS

Will solve the problem of filing your Letters, Documents, Checks, Legal Blanks, Cards, Quotations, Price Lists, Catalogs, or in fact anything that is fileable. You may buy them one drawer or one hundred drawers at a time according to the size of your business and you may add to them as your business grows. The prices will surprise you. Also you will find the most complete line of
